

RAZA ALAM

Full-Stack Developer | MERN Stack · Python · Flask

alam.raza23.27@gmail.com | +91 7004891854 | Silchar, Assam | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Third-year B.Tech Computer Science student specialising in full-stack web development with the MERN stack and Python/Flask. Has independently designed, developed, and deployed three production-grade applications — including a real-time event system built on five Flask microservices — demonstrating end-to-end ownership from backend architecture to cloud deployment. Seeking a software engineering internship in 2026 to apply these skills within a professional engineering environment.

EDUCATION

B.Tech — Computer Science & Engineering

2023 – 2027

Assam University, Silchar · CGPA: 7.4 / 10 · XII CBSE: 80.4% (Teresa International Academy, 2021)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, Java, C++, HTML5, CSS3

Frontend: React.js, EJS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, Flask, REST APIs, Microservices

Database: MongoDB, Mongoose ODM

AI / ML: Supervised Learning, Classification, Clustering, Pandas, NumPy

Tools: Git, GitHub, Vercel, Render, Postman, VS Code

PROJECTS

Cyber Escape Room — Python · Flask · JavaScript · Microservices · LAN Server | Yantraksh 2026, Apr 2026

Event Coordinator & Sole Developer · github.com/Mr-Raza-Alam/Cyber_Escape_Room

- ▶ Architected a live production system with 5 independent Flask microservices and a Master Admin Portal handling cross-service authentication, real-time participant tracking, and time orchestration across 4 simultaneous competitive puzzle rounds.
- ▶ Designed 4 decentralised puzzle domains (IP routing, cryptography, logic circuits, network intrusion) with deliberate LAN-only deployment for anti-cheat security and zero-latency reliability — demonstrating mature architectural trade-off thinking under a hard event deadline.

CampusCrib — Student Housing Platform · React.js · Node.js · Express · MongoDB · Vercel · Render

campuscrib-orphin.vercel.app · github.com/Mr-Raza-Alam/CampusCrib

- ▶ Built and deployed a full-stack student accommodation platform with React.js frontend on Vercel and Node.js/Express backend on Render — demonstrating real cross-origin cloud deployment and REST API development skills.
- ▶ Implemented complete CRUD operations for property listings with backend validation and persistent MongoDB database; live and publicly accessible.

Wanderlust — Property Rental Platform · Node.js · Express · MongoDB · EJS · SSR · Render

wa-wfh4.onrender.com/listings · github.com/Mr-Raza-Alam/First_Major_Project

- ▶ Developed a server-side rendered property rental platform with authentication (signup/login/logout), location-based search, ratings, comments, and map integration — deployed live on Render with MVC architecture.

CERTIFICATIONS & MEMBERSHIPS

- ▶ **IEEE Student Member** — Member #102226793 | Silchar Subsection | Valid through December 2026
- ▶ Machine Learning with AI (8-week) — Internshala × IITM Pravartak Technologies Foundation · Aug 2025
- ▶ Data Structures & Algorithms — Sigma 5 Development Program
- ▶ MERN Stack Development — Sigma 5 Development Program

ACHIEVEMENTS

- ▶ Event Coordinator & Sole Developer — Cyber Escape Room, Yantraksh 2026 (Tech Fest, Assam University, Apr 2026).
- ▶ Coding Profiles — LeetCode · HackerRank (Java 5★)

- Open-source contributor — Yantraksh 2026 backend (Node.js · TypeScript · REST APIs); practised branching, code review, and pull request workflows.
